## Recent Installations

**A&K Pizza Crust** started production of pizza crusts over 30 years ago. The Charles Family and their leaders turned their passion for pizza into a business that they are still crazy about today. A&K Pizza Crust now sells millions of pounds of dough products every year and helps pizzerias, entertainment venues, delis, manufacturers and more, deliver food customers love.

**The A&K Pizza Crust customers demand ultra-consistent quality and A&K's reputation depends on the flavor and texture of every pizza they sell.**

The same passion and hard work that started this company back in 1989 are definitely "Alive & Kickin'" in the people on their team today. Working hard around the clock to make sure quality is unparalleled and deadlines are met.

**Gemini/KB Systems** have delivered several complete dough ball systems to A&K Pizza Crust that are primarily used to feed the client's hot press pizza shell lines.

Gemini/KB Systems recently installed a system including a 5 pocket Dough Divider with a Conical Rounder and an Intermediate Rest Proofer that can produce weights of 9.25oz to 32oz up to 100 Pieces per min.

WP Multi-Pocket Divider with Conical Rounder
